- Inpatient to young pregnant women with substance abuse problems
- Assessments
- 12 Step groups
- Dual Diagnosis
- Relapse Prevention
- Pregnancy support and education
- Aftercare
- On site school and GED program

**Brief Overview:** A combination of traditional drug and alcohol treatment with counseling and education provides clients with an individual program for treatment and support. We provide special services to pregnant teens who have significant involvement in the abuse of ATOD to help break the inter-generational cycle. Emphasis is also put on aftercare follow up with the new mother as these young women are at risk of falling back into their addictive patterns.
